Information for Speakers

The official language of the conference is English. All speakers should locate their session room 5–10 minutes prior to the start of the session, and inform the session chair on their arrival. Each session room has a video projector. Please use your own laptop for the presentation. It is advisable to try your laptop with the video projector in advance, during break time, to ensure the connection is working. On-site technical assistance will be available.

All presentations must adhere strictly to the allotted time to ensure smooth working. The time allocation for presentations at MARSS2026 is as follows:

- Plenary talk: 40 min (35 min + 5 min discussion)
- Technical session talk: 20 min (15-17 min + 5-3 min discussion)

Information for Session Chairs

Session chair should arrive at the session room 10 minutes prior to the start of the session, check the attendance of all speakers and make sure of correct pronunciation for the speakers' introduction. If a speaker is not present in the session, the original schedule has to be maintained, since people may come from other parallel sessions to attend a specific talk. Thus, in such a case, there will be a 20-minute break. Please report any missing talk to the conference secretariat after the session end.

It is crucial that the sessions run strictly on schedule. Each 20 minutes slot normally includes 15-17 minutes talk and 5-3 minutes Q&A. Session chairs should warn the speakers 7-8 minutes before the end of the 20 minutes slot and show the "3 min" cardboard sign. Some speakers are uncooperative and use all 20 minutes for the talk. Please be firm in not permitting speakers to run over the allotted time of 20 minutes. In such cases, there is no Q&A. If necessary, ask the attendees to use the microphone during discussion.
